Art Unit: 1793

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 31-36, 39 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 8-16 of U.S. Patent No. 6875412. Although the conflicting claims are not identical, they are not patentably distinct from each other because forming a solution of the present nanotubes is an obvious expedient to use them in a composition or to coat them on a substrate, to exploit their strength and/or conductive properties.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.

A handwritten signature in black ink, appearing to read 'Stuart Hendrickson', is positioned above the printed name.
